The Magic of Cinnamon Cover Story

I will cure the sick with my new innovation

Innovation

It is a common belief that innovation is a rare talent. However, it is a skill that can be learned and developed. Innovation is the process of creating something new, whether it is a product, a service, or a way of thinking. It is the key to success in a competitive market. Innovation is not just about ideas; it is about the ability to bring those ideas to life. It is about taking risks and being open to failure. Innovation is a journey, not a destination. It is a process that requires time, effort, and resources. It is a process that is essential for the growth and development of any organization. Innovation is the lifeblood of a successful business. It is the engine that drives progress and creates value. Innovation is the key to staying ahead of the competition and achieving long-term success. Innovation is the future. It is the way we will live and work in the 21st century. Innovation is the answer to all our problems. It is the solution to all our challenges. Innovation is the power that will change the world. Innovation is the magic of cinnamon.

Nature's Agro Products clinches Gold NCE export awards

Nature's Agro Products Lanka, a leading value-added cinnamon & spices exporting company, was presented the Gold Award in value added agriculture sector, medium scale coconut and coconut based products sub category at the 24th annual National Chamber of Exporters of Sri Lanka (NCE) Awards, held on September 30, at the Hilton Colombo.

With a long and proud history of international trade, Nature's Agro Products Lanka is currently exporting its products to 20 countries including South Korea, Japan, New Zealand, Australia, Bolivia and Saudi Arabia. Reputed internationally for quality cinnamon products, Nature's Agro Product Lanka has an excellent range of value added quality exports including tea, virgin coconut oil, nutmeg, pepper and clove.

The company has been awarded with ISO 22000 and HACCP standards and a number of quality certificates. Nature's Agro Products Lanka continues its endeavours in manufacturing herbal products aimed at improving the quality of life.

"Innovation is our main focus, rather than continuing with traditional products we intend to conquer the world with new inventions. We have already attempted to find a solution to a global epidemic with one of our new products. There will be a worldwide demand once the product is launched, we hope," said Samantha Punchihewa, Chairman, Nature's Agro Products Lanka.

SUGAR KILLER TEA NOW IN THE MARKET

Sugar Killer Tea, a sugar free, yet sugar-like-taste filled tea which is a hundred per cent natural discovery from Sri Lanka has been introduced to the market for the first time. Sugar Killer Tea is successfully exported to many countries around the world. Sugar Killer Tea comes in a special blend in which sugar, artificial flavours and colourings are absent. But this blend is sweetened only with cinnamon and tea.

Diabetic patients can use Sugar Killer Tea without any risk of any health issues as it is accompanied only by the sweet taste that sugar conveys. As cinnamon is used for many diseases such as arthritis, cholesterol and many more along with diabetes in Ayurveda, anyone from different walks of life can add Sugar Killer Tea to their daily tea servings.

Nature's Agro Products Lanka (Pvt) Ltd, has won a huge number of awards garnering international glory, by exporting Sri Lankan products to the international market over a long period of time. Sugar Killer Tea products are exported to places like Europe, Korea, the United Kingdom and United States of America.

Our Vision

*"change people's life styles with **Nature's** innovations."*

Our Mission

To be among the acknowledged market leaders of Agro Based Organic Food Products, while retaining both local and the international market leadership position, through the innovations and continues process improvements to consistently identify the changing lifestyle of the customers and then offer a wide range of Value Added Agro Based Products with a view to develop a better bargain to our valued boundless customers.

100% Export Oriented Company

Founder Message

**I WILL HEAL ALL
THE SICKNESSES
WITH MY
INNOVATIONS.**

The resounding history of Nature's been in 2005. Nature's is a symbol of Natural Quality, Taste, and Purity. Everyday my vision was **To Change People's Lifestyle with Nature's Innovations**. I wanted to bring Sri Lanka's Spices, specially Ceylon Cinnamon and Natural Virgin Coconut Oil. So my journey started when I was a student in 1990. From that time I was expanding this business until now through Nature's to become my dream come true.

With the passage of time, Nature's Agro became the most preferred supplier of Spices and Organic Virgin Coconut Oil, owing to the best quality of our products.

As far as the resounding history of our business is concerned, we believe that the main reason behind our success is that we have been following the doctrine of being unique to our valued customers. For now Nature's Band sprinkled over 50 countries with proud.

While focusing on the international market, we are in the practice of expanding our market share by means of introducing a wide range of most sought after value added organic products at a cost effective price for our valued customers. Economies of scale that we gain from the mass production have immensely contributed towards the enhancement of market share of our products. We have been compelled to look for possibilities of improving the space availability to carry out the production process on a large scale, in order to meet the rising demand which comes from various countries of the World.

For now I was established 04 companies with Nature's to expand our tings to the world more and more... In our endeavor to look for possibilities of expanding the space availability and the new value added product innovations to both local and international markets, the management of Nature's strongly believe that the ongoing business expansions will have a revolutionary impact on the future growth prospect of the entire business operations.
